

Dear 1064 Mission Neighbors,

We have started construction of the six-story residential building at 1064 Mission St! We will continue to send out monthly newsletters with updates on progress and upcoming construction milestones, as well as occasional bulletins to inform you of a specific activity that may have an immediate noise or traffic impact. As is the case with any construction project, the schedule is subject to change due to unforeseen and weather conditions, but we wish to keep you updated on the major activities. We will endeavor to mitigate the impacts construction may cause to your community. We look forward to a successful project both for the SoMa community and the City of San Francisco. Thank you for your patience and understanding!

WHAT ARE THE UPCOMING ACTIVITIES OVER THE NEXT MONTH?

- Concrete pours will continue through November. The Level 2 Podium along Stevenson Street will be poured on 11/10/20 and the Level 2 podium along Mission Street will be poured on 11/21/20. This will require closure of Stevenson Street to through-traffic on 11/10/20 and closure of the Northern traffic lane of Mission St on 11/21/20 during the day. This will also generate typical construction noise. We will continue to implement procedures to mitigate dust. Currently, mod set is estimated to begin on 1/3/21.

WHAT DAY & TIMES WILL CONSTRUCTION ACTIVITIES OCCUR?

Our typical work day is 7 a.m. to 5 p.m., Monday through Friday. Construction activities will not normally occur on weekends, holidays, or during overnight hours, however, it may occasionally be necessary to work during those hours. In those instances, we will provide advance notice and the weekend work would take place between the hours of 8 a.m. and 5 p.m.

PLEASE NOTE...

We have a street space permit that is valid for 6 a.m. to 4 p.m., seven days a week for the next 18 months to occupy the parking lane in front of the site on Mission Street and Stevenson Street. This is required for staging materials, setting up equipment, delivery trucks, dumpster, etc. Parking will not be available along these street frontages for the duration of construction.

Construction of housing is exempt from 'shelter in place' orders issued by the San Francisco Department of Health and the State of California, as it is considered 'essential infrastructure.'* As the global impact of the coronavirus continues to change daily, one constant is Cahill's commitment to the health and safety of our employees and the communities we serve. We are taking precautionary measures in compliance with CDC recommendations, WHO guidelines, and Cal/OSHA rules to mitigate the spread of COVID-19.

As the situation continues to evolve at a rapid pace, we will continue to follow guidelines and directives to maintain the health and safety of our employees, partners, and communities.

**San Francisco Order of the Health Office No. C19-07 states that individuals may leave their residence to provide any services or perform any work necessary to the operations and maintenance of "Essential Infrastructure," including, but not limited to, "public works construction, construction of housing (in particular affordable housing or housing for individuals experiencing homelessness)..." [Section 10c, page 6]*
